Re: Proposed Revised Permit #R10OCS-AK07-01

Dear Mr. Mahar:

The MMS has reviewed the U.S. Environmental Protection Agency, Region 10 *Notice Regarding Revised Shell Kulluk Air Permit Proposed February 2008* and the supporting Supplemental Statement of Basis. The MMS concurs with EPA's new "stationary source" determination and ambient impact analysis. The MMS believes the proposed permit terms and conditions are appropriate. The MMS encourages EPA to proceed with issuing the permit in a timely manner.

If you have any questions, please contact Mr. Daniel Hartung at (907) 334-5300.

Sincerely,

John Goll
Regional Director
